Erimus.

This latin word is Middlesbrough's motto meaning 'we shall be'. And never has it been more apt.

Middlesbrough's industrial legacy is giving way to a renewed optimism and confidence to build a commercial powerhouse, helping to transform lives and futures.

Little more than a hamlet at the start of the 19th century, Middlesbrough boomed into one of the global centres of the iron and steel industries – an 'Infant Hercules' in the words of Gladstone, during a visit to the town.

Our optimism and belief has already laid solid foundations creating a vibrant urban hub – brought about through partnerships between the public and private sectors and delivering real and lasting results.

But our story doesn't end here. Now is the time to be bold.

We are seizing this opportunity to work as a town to achieve our ambitions set out in this document. We'd love you to join us on our journey.
