ELECTORAL OFFICERS COMMENTS:	
Location & suitability	Station previously used prior to 2014 so is familiar to residents. Well located to serve the properties previously served by the International Centre which were found to be too far away, and also the north part of the area previously covered by the station at Teesside University which is no longer being used.
Parking	Restricted. Off street parking nearby.
Access	Fully accessible
Facilities for staff	Satisfactory
Recommendation	Most suitable building within polling district.

RETURNING OFFICERS COMMENTS:
Station reinstated following a request from ward councillors for a polling station in the western part of the ward. This station was used for all elections prior to 2015. Is also conveniently placed for some streets where residents used to vote at Teesside University.

ELECTORAL OFFICERS COMMENTS:	
Location & suitability	Existing station familiar to residents. Only suitable public building identified within the polling district.
Parking	Limited parking on site. Off street parking nearby.
Access	Fully accessible
Facilities for staff	Satisfactory
Recommendation	Only suitable building within polling district. Expanded to combine with existing station at Europa Building, Teesside University.

RETURNING OFFICERS COMMENTS:
This polling station has been used for several previous elections and so is well known by local electors. The existing station at Europa Building, Teesside University offers poor facilities for both voters and station staff therefore I recommend that the Europa Building station be discontinued, with most streets in that polling district absorbed into this polling district. The enlarged station still has an electorate within maximum limits.
