

Businesses in Middlesbrough, which operate premises where a cooling tower or evaporative condenser is located, must give notification of this in writing to Middlesbrough Council

unless:

- it contains no water that's exposed to air
- its water supply is not connected
- its electrical supply is not connected

Notification assists in the event of an outbreak of Legionnaires Disease and to take rapid action to deal with the emergency. The notification form is available on the Middlesbrough Council Website.

The following is a list of cooling towers which are located in Middlesbrough.

Premises Name	Post code	Name / Identifying Number
Chemoxy International Ltd	TS3 6AF	CT151
Chemoxy International Ltd	TS3 6AF	CT202
Chemoxy International Ltd	TS3 6AF	CT251
Chemoxy International Ltd	TS3 6AF	CT401
Chemoxy International Ltd	TS3 6AF	CT603
